Date: Friday, September 27, 2013, 12 am

Title: **Moduli spaces of vector bundles on non-Kaehler elliptic fibrations**

Speaker: **Prof. Vasile BRÎNZĂNESCU**, (Senior researcher I at IMAR, leader of the Algebraic Geometry Group of IMAR, previous Director of IMAR)

Abstract: "We shall present some results on moduli spaces of semi-stable vector bundles on non-Kaehler elliptic fibrations. The main tools are the spectral cover and a twisted Fourier-Mukai transform."
