

**”The Trans-Carpathian Seminar on Geometry & Physics”**

(See also the [Geometry & Physics @ DFT](#) seminar homepage)

*Date:* Wednesday, Dec. 4, 2024, 15:15 EET (Bucharest time)

*Location:* online via Zoom

*Speaker:* **Prof. Carlos Shahbazi** (UNED, Madrid)

*Title:* **A class of differential-geometric problems in supergravity**

*Abstract:* I will give a pedagogical introduction to a natural class of geometric problems motivated by supergravity which, broadly speaking, fit within the topics of geometric analysis of evolution flows and elliptic moduli problems. No prior knowledge of supergravity will be assumed.
